Dear Brethren,

Greetings in the name of our Lord and savior Jesus Christ. Your demonstration of love for mankind as you put your faith in action, has been very rewarding.

By God's grace, with your support we have made a considerable difference in the lives of Fallay Wujah residents in rural Sierra Leone.

For 8 years now we have helped with community farming to challenge post civil war hunger. We have empowered the youth and young adults by academic and vocational training to earn a living. Hope U.M.C. appeals to the souls of the community residents and economic development is promising as residents can now utilize their recently built cassava processing factory for commercial production of their second staple food.

Enclosed is our latest brochure showing a summary of our operations from clothing projects to school supply distribution to area schools, our Ebola prevention effort program and much more.

Great News ! The 30 bed community hospital that you have contributed to building over the last two years is now completed. Praise God ! I spent the past April in Sierra Leone where we organized a health fair that gave us a reliable information about the prevalent diseases in the 7 thousand plus community. Pictorial representation of the event is also enclosed. Thank you for your continuous support.

Please remember us in your prayers. We are currently focused on raising funds for the salaries of our workers. Would you pray over committing to either pay a nurse or two, a medical technician, a non clinical staff and or a doctor. On the enclosed health fair event flyer are the number of employees and their approved salaries and benefit packages.

Please join us in prayer of thanksgiving for the miracle of a hospital in a community that would never have dreamed of such without Devine intervention. Remember to let us know how you can possibly help, for budgetary purposes.

Many blessings to you and your loved ones.

Yours in Christ,

Dr. Sam Kormoi. (founder PRHeSS ministry) 708 308 3064.
